

# BME680 Shuttle Board

## GENERAL DESCRIPTION

The Bosch Sensortec BME680 shuttle-board is a PCB with a BME680 gas, pressure and humidity sensor mounted on it. It allows easy access to the sensors pins via a simple socket. As all Bosch Sensortec shuttle boards have identical footprint they can be plugged into Bosch Sensortec's advanced development tools (e.g. Development Board). Of course, the BME680 shuttle board can also be used for customer's own implementation.

Note: Product photo may differ from real product's appearance.

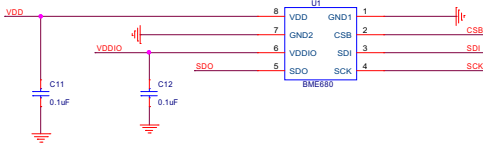

Shuttle board outline dimensions (all dimensions in mm)

BME680 Shuttle

I2C address Matrix

SDO	Addr	Part
L	0x76	BME680
H	0x77	

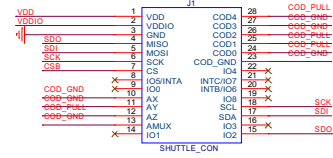

Unless mentioned in value, all resistor and capacitor could use 0603

Shuttle placement

SID COD8 -> COD0  
0 0 1 0 1 0 0 1 1
